

## 能源政策 Energy policy

本公司秉持尊重地球生命之環境理念，深切體認地球資源有限及企業永續發展的重要性，基於對節能減碳之認知與善盡企業的社會責任，本公司承諾透過能源管理系統，持續改善能源使用效率，降低公司生產或作業活動中的能源使用，並制定適當的能源管理績效指標。為此我們提出下列承諾：

The company adheres to the environmental concept of respecting the life of the earth and deeply understands the limited resources of the earth, emphasizing the importance of sustainable development for enterprises. Based on the recognition of energy conservation and carbon reduction, as well as fulfilling corporate social responsibilities, the company promises to continuously improve energy efficiency through the energy management system. This includes reducing energy use in the company's production or operating activities and determining appropriate energy performance indicators. The company is committed to the following:

1. 落實能源管理系統，審查能源目標標的。  
Implement an energy management system and review energy objectives and targets.
2. 提供能源改善資源，遵守能源相關法規。  
Provide resources for energy improvement and ensure compliance with energy-related legal requirements.
3. 提昇能源使用效率，減少能源不當浪費。  
Enhance energy efficiency and minimize the wasteful use of energy.
4. 支持節能設計活動，優先採購節能設備。  
Support energy-saving design activities and prioritize the purchase of energy-saving equipment.
5. 持續推行能源節約，實踐企業永續經營。  
Continue to promote energy conservation and fulfill corporate sustainability.

本公司將持續對所屬員工進行教育與宣導，使其了解並維持此政策，此政策並可對社會大眾公開。

The company is committed to ongoing education and communication with employees to ensure understanding and adherence to this policy. Additionally, this policy is open to the public for transparency and accountability.
